SUVA SANGAM COLLEGE

YEAR 12

BIOLOGY

WORKSHEET 11

1. An earthworm has a hydrostatic skeleton.

   (i) State **one** advantage and **one** disadvantage of this type of skeleton.

   (ii) Explain briefly how the hydrostatic skeleton enables an earthworm to move from one place to another.

2. Describe adaptations of birds which aid in successful flight.

3. Compare methods of protection, support and movement in a fish and a mammal.
