

BA SANGAM COLLEGE
YEAR 13
TECHNICAL DRAWING
WORKSHEET 1

(Attempt the questions at the back of your exercise book)

1. Make a word list of terms associated with Triangulation and define each term. (1 mark each)
2. Explain in your own words how to find the true length of a line. (2 marks)
3. Differentiate between triangulation development and parallel line development. (2 marks)
4. Sketch at least 5 object which will need the method of triangulation for its development? (5marks)

Example:

1. Make a word list of terms you don't understand and find their definitions. (1 mark each)
2. Name the different types of Cams. (1 mark each)
3. Sketch the four different types of Cam Followers. (12 marks)
4. Name and sketch the different types of motions. (12 marks)
