

**2034 NANUKU SANGAM SCHOOL
LESSON NOTES
WORKSHEET 3 - 2021**

Subject: Elementary Science

Year: 5

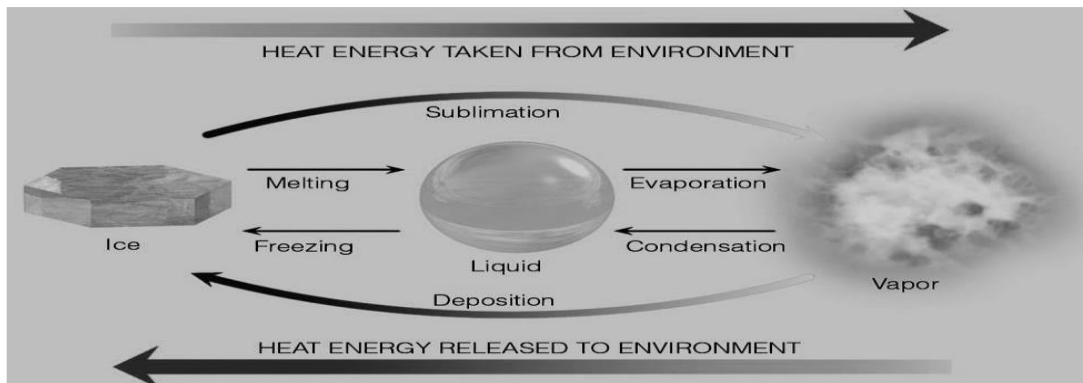

Name: _____

STRAND	Matter
SUB - STRAND	Investigating Matter
CONTENT LEARNING OUTCOME	Investigate how matter change from one state to another in our everyday life

Lesson Notes

How Does Matter Change Its State?

- Matter changes its state through different processes.
- A solid can change into liquid and a liquid can change into a gas.
- A gas can also change to a solid and liquid.

Types of changes

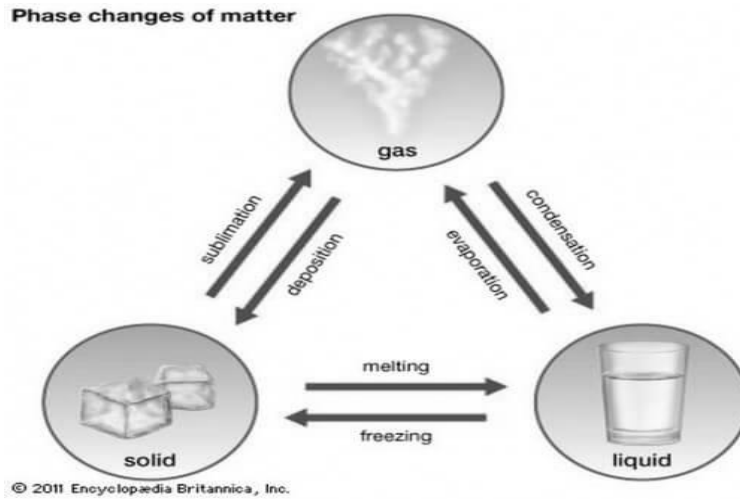

Changes

Physical Changes

- * The physical properties change, appearance changes
- * Reversible
- * Examples are
 - Melting ice
 - Boiling water
 - Dissolving sugar in water

Chemical Changes

- * A change where new substance is formed
- * Cannot be reversed
- * Examples are
 - Eggs cooking
 - Bread rising
 - Burning logs

ACTIVITY

1. Name the process when solid changes to liquid.

2. What is evaporation?

3. Name the process when solid changes to gas.
