

1076 NADI SANGAM SCHOOL

LESSON NOTES (WORKSHEET 3)

SUBJECT : Elementary Science

YEAR/ LEVEL : 3

STRAND 3	Energy
CONTENT LEARNING OUTCOME	Demonstrate the concept of energy and explain its importance
TOPIC	<u>Energy Sources</u>

Energy Sources

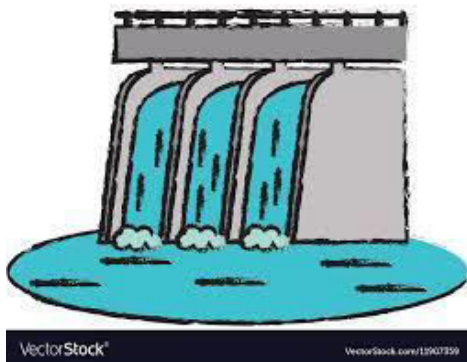

The Sun : The sun provides energy in the form of solar power. The energy source is free and clean. Some solar systems can store energy, but it does not last long.

Wind Energy - Wind mills create safe and pollution free energy for use. Wind power is the conversion of wind energy into a useful form of energy. Windmills will not be useful; if there is no strong wind blowing.

Water Energy- This is energy from flowing water used to create electricity. Fiji uses hydro power from Monasavu Hydro Dam. This source is free and clean.

Activity 1

Fillers

1. The sun provides energy in the form of _____ power.
2. Windmill will not be useful if there is no strong _____ blowing.
3. Fiji uses hydro power from _____.

Activity 2

Collect pictures of different sources of energy.
