# Suva Sangam College Year 9 Subject Commercial Studies Week Two Date 12<sup>th</sup> to 16<sup>th</sup> July 2021 Strand: Business Information System 1 Sub Strand: Business and the accounting system

Achievement indicator

Identify the users of accounting information

Users of Accounting Information

There are two groups of users of accounting information:

- 1. Internal Users
- These are groups who have direct access to the businesses "books" or accounting records.
- They can also request for Special Purpose Financial Reports [SPFRs]
- Have access to internally generated management reports.

Examples of internal users of accounting information.

	USER	REASON
1.	<b>Owners/Shareholders</b> are people involved in running of the business.	<ul> <li>Interested in the profit goals of the business</li> <li>Assess the performance of the management.</li> </ul>
2.	<b>Management</b> are people who manage the business	To evaluate the performance of the business
3.	<b>Employees</b> are people who work for the owner	To ensure that business provides wages or salaries on time and good working conditions.

- 2. External Users
- These groups of people do not have direct access to accounting records of the business
- These groups rely on General Purpose Financial Reports [GPFRs] to make decisions and
- They have access to reports generated for external users.

Examples of internal users of accounting information.

USER	REASON
1. <b>Investors</b> are people who contribute money to the business	Interested in the rate of return that the business will earn currently and in the future.
2. Creditors/Suppliers are people who supply goods to the business	Measure the credit worthiness of the business (the debt paying ability of the business).
3. <b>Trade Unions</b> are unions that represent the employees	Assess the job security and wage negotiations of the business for the employees.
4. <b>Government</b> is the main regulating	have various users such as:

	authority of the nation	<ul> <li>a. FRCA – to assess and collect tax.</li> <li>b. Labour Department – to assess number of workers employed.</li> <li>c. Fiji Commerce Commission – to know the pricing and trading activities of the enterprise.</li> </ul>
5.	<b>Competitors</b> are businesses that sell similar goods.	So that they can get a greater market share.
6.	<b>Customers</b> are people who buy the goods from the shop	They want to see if the business will continue to provide/produce the goods and services they need/want

Achievement indicator

Define business ethics and address some accountability issues identified.

## **Business ethics**

Business ethics are guidelines or regulations used in making sound business decisions.

Business ethics can be divided into:

1. Social ethics

Refer to those business behaviours or obligations that strengthen or develop stronger bonds between employer, employee, customers, communities, societies as a whole.

2. Economic ethics

Are those ethics that allows business to be honest, fair and "clean" in terms of trade to generate maximum income.

3. Financial ethics

Deals with accountability, transparency and true reporting of business information.

## 4. <u>Religious ethics</u>

Deals with people working together as a team for progress regardless of their religious background.

Accounting information must be prepared ethically so that transparency and honesty is maintained at all times.

## Activity 1

- 1. Explain the term business ethics
- 2. Study the dialogue given below and answer part a,b,c

Manager: disclose little profit so that we have to give little pay rise Accountant: ??

a. Do you support the suggestion?

- b. Give a reason for your answer
- c. Which business ethics is violated?

# Suva Sangam College Year 9 Subject Commercial Studies Week Four Date 26<sup>th</sup> to 30<sup>th</sup> July 2021 Strand: Business Information System 1 Sub Strand: Business and the accounting system

Achievement indicator

Identify and describe the different types of accounting concepts as used in the accounting system.

Accounting concepts are the concepts or guidelines that are used in preparing the financial reports.

Some of the accounting concepts include:

	Concept	Definition
1.	Monetary concept	This concept states that all business transactions must be recorded in money terms, that is, in dollars and cents.
2.	Accounting equation concept	This concept states that all assets must equal to liabilities plus proprietorship.
3.	Double entry concept	This concept states that for every debit entry, there must be a corresponding credit entry.
4.	Separate entity concept	This concept states that the records of the business are kept separate from that of the owner.
5.	Legal entity concept	This concept states that In the eyes of the law, the business is regarded as a separate entity from the person(s) owning the business.

# Activity 1

1. Use the table given below to answer part a-e

	Monetary concepts	Accounting Equation	Double entry concept
	Separate entity concept	Legal e	entity concept.

## Achievement indicator

Identify the career opportunities for commerce and make informed decision based on the analysed information.

Commerce is a very broad field and it provides students with so many interesting job opportunities.

### <u>Career Opportunities in Commerce</u> Subject combinations

Accounting, Economics, English, mathematics and any of the following electives:

- A. Computer studies
- B. Geography
- C. History
- D. Agricultural science
- E. Office technology

## Tertiary qualifications

- 1. Certificate
- 2. Diploma
- 3. Degree
- 4. Post graduate certificate/diploma
- 5. Masters
- 6. Doctorate

Tertiary institutions in Fiji

- I. The university of the South Pacific (USP)
- II. Fiji National University (FNU)
- III. University of Fiji (Uni Fiji)

## Career/Jobs available for commerce students

Group 1	Group 2	<u>Group 3</u>
