### Strand: 2 Algebra

### Sub-Strand: Algebraic Expression

### **Content Learning Outcome:**

At the end of the lesson, students should be able to translate the given phase to algebraic expression.

### Algebraic Expression

Listed below are the words for each expression.

| (+) Addition, the sum, added by.  | (-) Subtract, minus, take away.      |  |
|-----------------------------------|--------------------------------------|--|
| <b>EXAMPLE:</b> Add with a letter | <b>EXAMPLE:</b> Subtracted from m    |  |
| 5 added to y                      | M - 9                                |  |
| 5 + y                             |                                      |  |
| (x) Multiply, the product, times. | (÷) Divide, quotients, share equally |  |
| <b>EXAMPLE:</b> 3 multiply by X   | <b>EXAMPLE:</b> 28 divided by n      |  |
| 3 x X                             | $28 \div n$                          |  |

### **Strand: 3 Places and Environment**

### Sub- Strand: Features and Places

### **Content Learning Outcome:**

At the end of the lesson, students should be able to identify with illustration the basic features/types of schools and discuss the functions.

My School

- A school is a place of learning.
- In school we have big buildings where classrooms are.
- The Head Teacher leads the teachers and the school.
- The school is the second home for teachers and students.
- Every school is guided by the school rules.

### Activity

- 1. Write down the name of your school?
- 2. Which class are you in and write down the name of your teacher?
- 3. Write down 2 classroom rules?
- 4. Draw and colour your school.

| Strand           | Energy  |
|------------------|---|
| Sub strand       | Energy source and transfer.   |
| Content learning | At the end of the lesson, the students should be able to:                 |
| outcome          | Identify and gather information about sources of energy used in the world |
|                  | around them and the forms this energy takes.                              |

### **ENERGY SOURCE AND TRANSFER**

- 1. Energy is ability or fuel required to do something.
- 2. Energy Sources: Fossil fuels (oil, coal and natural gas) sunlight, food, wood, water, wind, electricity and wave power.
- 3. Sunlight The light that comes to the earth from the sun is pure energy.
- 4. The sun is the original energy source.
- 5. Nearly all other sources of energy originally got their energy from the sun.
- 6. Food Food is the source of energy used by people.
- 7. Food that we eat is digested, and the stored energy is used by the body to keep the heart beating, the blood pumping and the body growing.
- 8. Wood Wood comes from trees, which are, of course, plants.
- 9. The plants get their energy from the sun.
- 10. Fossil Fuels Coal, oil and natural gas are the three energy sources that come from dead plants and animals buried underground for millions of years.

### **ACTIVITY**

### 1. Draw and colour.

| Sun energy | Water energy | Wood energy |
|------------|--------------|-------------|
|            |              |             |
|            |              |             |

### 2. Matching

### Match the statements in column 1 with the correct terms in column 2.

| COLUMN 1   | COLUMN 2         |
|--|------------------|
| 1. Coal, oil and gas.                              | a. Food          |
| 2. Comes from trees and plants.                    | b. Sunlight      |
| 3. Source of energy used by people.                | c. Plants        |
| 4. The light that comes to the earth from the sun. | d. Wood          |
| 5. They get energy from the sun.                   | e. Fossil fuels. |

3. Look at the picture below and label what form of energy is being used.

### Lesson Notes

### **Strand 3: WRITING AND SHAPING**

### **Content Learning Outcome:**

At the end of the lesson, students should be able to identify the conjunctions at the sentence given.

### **Conjunctions**

Conjunctions are words that are used to join other words or part of the sentence.

For Example: I like cakes and lollies.

: The plant died. We forgot to water it. Join using *because*: <u>The plant died because</u> we forgot to water it.

: The players were small. They won the match. (*but*): The player were small but they won the match.

### Activity

Join these sentence or sentences by using the conjunctions mentioned on it.

- 1. We could not go out. It was raining. (because)
- 2. Samu throw the shot put. He set a new record. (and)
- 3. Jone jumps very high. No one cheers. (but)
- 4. The tree was chopped down. It was dangerous. (because)

| Content learning | At the end of the lesson, the students should be able to: |
| outcome          | Interpret behaviors that promote or hinder friendships.   |

### **Good manners**

- I must say "thank you "if I am given something.
- Learn to say "excuse me" when we need something
- Ask for forgiveness if you have done something wrong
- Say "please" when you want something.
- Do not interrupt in between when two people are talking
- Use "May I Borrow" if you want to borrow something from someone
- Raise your hand if you want to speak or say something in the class

Everybody loves people and children who have good manners
