# SUVA SANGAM COLLEGE

# <u>YEAR 12</u>

### **COMPUTER**

### WORKSHEET 8

COMPUTERS AND APPLICATION
Visual Basic.NET Programming (VB.NET)
Discuss features Visual Basic Programming, flowcharts, variables and
interface
Pg 103-108

# Questions

No.	<b>CONCEPT IN BRIEF</b> : Discuss features Visual Basic flowcharts and variables
1.	a) Draw the flow chart of the following program where user has to enter the
	number of electricity units used, E. Calculate the basic amount due, A,
	which is equal to E*0.21. If the number of electricity units used is greater
	than 500, add a surcharge of 50 dollars to the bill. Display the amount of
	the bill.
	b)
	Identify two syntax error and one logic error in the following VB code.
	Dim intspeed as integer
	speed = integer.pass(txtspeed.text)
	If intspeed $\geq 100$ then
	lbldisplay.text = "Slow, increase your speed"
	Else
	lbldisplay.text = "Fast, slow it down"
	c) Differentiate between global and private variables.
2.	CONCEPT IN BRIEF: Discuss the features of user codes
	What is the result of the following codes?
	i. optRed.Checked = True
	ii. lblMessage.ForeColor = Color. Green
	iii. txtDiscount.Text = DiscountDecimal.ToString("C")
	iv. txtspeed.focus()
3	<b>CONCEPT IN BRIEF</b> : Discuss the features of user interface
3	Ayman Computers supplies computers to secondary schools around Fiji. Due to
	the high demand of their products, the owner has asked you to develop a program that would automatically calculate the total cost of computers bought by their
	customers. The company charges \$825.50 for the cost of the first 20 computers
	ordered and \$720 for each additional unit.
	a) Draw an <b>interface</b> that will request for the customer's name and number of
	computers bought, calculate total cost of sales and display the customer's
	name, number of computers bought and total cost
	b) Also add clear and exit button.
L	of Theo add clour and one outlon.
