

PENANG SANGAM HIGH SCHOOL
P.O.BOX 44, RAKIRAKI
Week 9
LESSON NOTES

Year/Level: 12

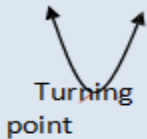

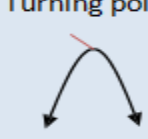

Subject: Mathematics

Strand	3
Sub Strand	3.1.1
Content Learning Outcome	Students should be able to: <ul style="list-style-type: none"> • Draw Quadratic graphs

Lesson Notes

Topic: Quadratic Graphs

- **Quadratic Graphs** have a degree of 2, eg, $y = x^2$, $y = x^2 + 2$ and $y = (x - 2)^2$
- The graph will be **symmetrical** about the **turning point (Vertex)**.
- **Symmetrical** objects will have one half as the reflection of the other half. Line of Symmetry – the line that divides the object into two equal halves.
- When drawn the graph has a parabola summarised in the table below

GRAPH $y = \pm a x^2$	POSITIVE SHAPE ($y = + a x^2$)	NEGATIVE SHAPE ($y = - a x^2$)
$y = x^2$, $y = -x^2 + 2$, $y = (x+1)^2$		

To sketch the quadratic graphs there are three methods:

EXAMPLE 1: Sketch graph of $y = x^2$
Using tables

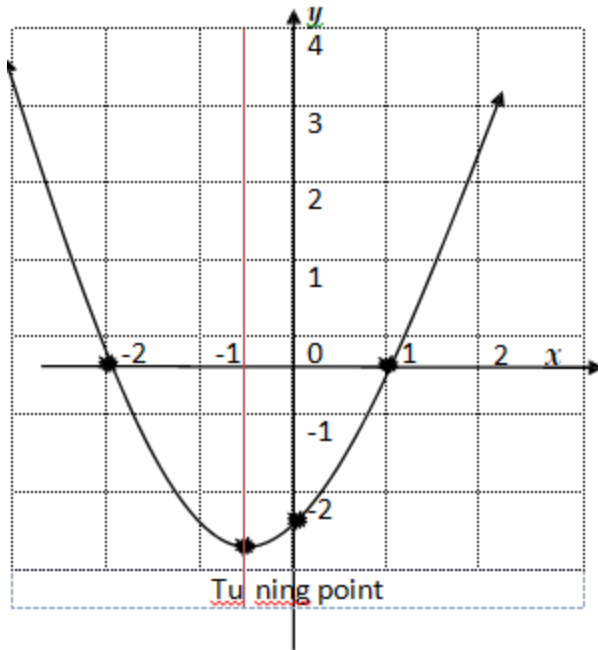

Take some x – values, i.e, positive and negative numbers.
Substitute those x values to find y

x	$y = x^2$	(x,y)
-2	$(-2)^2 = 4$	$(-2,4)$
-1	$(-1)^2 = 1$	$(-1,1)$
0	$(0)^2 = 0$	$(0,0)$
1	$(1)^2 = 1$	$(1,1)$
2	$(2)^2 = 4$	$(2,4)$

EXAMPLE 2: Draw the graph of $y = x^2 + x - 2$

Using Intercepts

To find x -int, let $y = 0$:

Substitute 0 in place of y & solve

$$0 = x^2 + x - 2 \quad \text{Factorize}$$

$$\begin{array}{l} x \quad 2 \\ x \quad -1 \end{array} \rightarrow$$

$$0 = (x + 2)(x - 1) \quad \text{Solve}$$

$$x + 2 = 0, \quad x - 1 = 0$$

$$x = -2, 1 \quad [2 \text{ roots}]$$

To find y -int, let $x = 0$:

Substitute 0 in place of x & solve

$$y = x^2 + x - 2$$

$$= 0^2 + 0 - 2$$

$$= -2$$

Shape: $y = +x^2$

Turning point: Since symmetric, it should be at the midpoint of x -coordinates, thus

$$x_m = \frac{-2 + 1}{2} = \frac{-1}{2}$$

$$y = (-0.5)^2 + -0.5 - 2 \\ = -2.25$$

Turning point = $(-0.5, -2.25)$

Activity

Sketch the following graphs

- $y = x^2 - 25$
- $y = -x^2 - 2x + 3$
- $y = 3x - x^2$
- $f(x) = x^2 - 2x$

Please note the third method is using **transformation of quadratic graphs** which will be covered in the **next** worksheets.
