SCIENCE ACTIVITY

4. Floating and sinking

This activity will encourage children to make predictions and observations about weight (lighter/heavier, full/empty).

Materials

Basin or small bucket, water, stones, dry leaves, piece of sponge, empty containers, shells.

Steps

- Supervise children closely
- Allow children to collect objects of their choices
- Fill the water basin for the children
- Allow the child to play and observe.

ART AND CRAFT ACTIVITY

COLLAGE

Cutting and pasting of pictures.

MATERIALS

Old magazines, newspapers, scissors, old cardboard, old books for pasting, glue stick.

STEPS

- Provide all the materials for the child which is available around the house.
- Supervise the child while he/she is using the scissors
- Assist them while they use scissors
- Allow them and support them while pasting pictures and using glue.
