LESSON NOTES

WORKSHEET 12

YEAR 12: GEOGRAPHY	NAME:	

Strand	2.3 Tourism
Sub Strand	<u>12.2.3.2</u>
Content Learning Outcome	Tourism and tourists and A

How can you reduce climate change and prepare for its impacts?

It isn't a hopeless fight. You can play a part reducing greenhouse emissions and start preparing for the changes. Reducing your electricity usage, driving less and recycling more helps to reduce greenhouse gases. Here are a few examples of what you can do:

- •Carpool or cycle to work, or use public transport if you can.
- •Reduce your flights for work or pleasure, by organising cyber meetings, and enjoying local tourism.
- •If you have a garden, plant indigenous, droughtresistant trees and shrubs around your home.
- •Make sure your house is ready for storms in winter.
- •Use energy efficient light bulbs e.g. replace your light bulbs with LED light bulbs.
- •Reduce your electricity consumption, unplug unused electronic devices, and turn off air conditioners.
- •Turn down the temperature of your geyser or install a solar geyser.
- •Invest in Renewable Energy (solar energy, wind energy, and Biomass).

- •Reduce, re-use and recycle paper, plastic and other recyclable materials.
- •Use water wisely.
- Energy efficiency
- •Renewable energy
- •Built environment critical infrastructure, disaster management, integrated waste management, human settlements
- •Sustainable transport
- •Water security and efficiency
- •Biodiversity and ecosystem goods and services
- Coastal and estuary management
- Food security and
- •Healthy communities

These small changes don't only reduce your contribution to climate change, they also save you money and improve your health.

WAYS AND MEANS OF MINIMIZING THE PROBLEMS

<u>Activity</u>	
Discuss the ways how the problem climate change can be addressed.	
(2marks)	
Define food security, transport sustainability and cultural tourism.	
3 marks)
