

# **WEEKLY HOMESTUDY**

## **PACKAGE # 9**

### **ASSESSMENT**

#### **YEAR 4**

## ASSESSMENT INSTRUCTIONS FOR PARENTS

- Follow the time allocated strictly. (ie. 1 hour for Maths, English & Vernacular/ 45 minutes for each General Subject paper.
- It should be done by the child without any assistance provided by parents or siblings.
- Child should not get access to the paper before the test.
- The picture of child's work should be sent to the teacher immediately after finishing the paper.
- Follow the timetable given below:

<u>Monday</u>	<u>Tuesday</u>	<u>Wednesday</u>	<u>Thursday</u>
Maths	Elementary Science	Health Science	Catch up session
English	Vernacular	Social Studies	

- ❖ **Test can be conducted at any time of the allocated day.**
- ❖ **If students are not able to sit for the test on the scheduled day they'll do it during catch up session.**
- ❖ **Please inform the teacher if the child is unable to sit for the test on that particular day.**

Be honest with the assessment to get the true picture of your  
child's learning.

**1076 NADI SANGAM SCHOOL**  
**YEAR 4 MATHEMATICS AUGUST ASSESSMENT 2021**

**Section A: Multiple Choice** (Circle the best answer)

1. Study the diagram below then answer the questions numbers 1 and 2.

1.  $A \cap B$  is
- A. PIZZA                                      B. ROTI                                      C. JUICE
2. The cardinal number of set B is
- A. 6    B. 4    C. 3
3. Which of the sets below shows an odd and an even number?
- A. {3,4}                                      B. {3,5}                                      C. {2,4}
4. Which of the shapes below has three dimensions?
- A.                                       B.                                       C. 
5. What is the sum of 4536 and 3512?
- A. 8148                                      B. 1024                                      C. 8048
6. The place value of '4' in the number 7642 is
- A. hundreds                                      B. ones                                      C. tens
7. The set of numbers in correct ascending order is
- A. 12, 21, 22, 221                                      B. 111, 101, 11, 10                                      C. 3, 31, 33, 13
8. Which of the months below has 30 days?
- A. May    B. September                                      C. February

9. The number closest to 30 is  
 A. 39                                      B. 29                                      C. 32
10. The day after Friday is  
 A. Thursday                                      B. Saturday                                      C. Sunday
11. The number between 199 and 201 is  
 A. 198                                      B. 200                                      C. 202

12. The shape given above is a  
 A. square                                      B. hexagon                                      C. pentagon

12	21	30		48	57
----	----	----	--	----	----

13. The number missing in the pattern given above is  
 A. 39                                      B. 44                                      C. 47
14. Which month of the year means ten or is related to the number 10?  
 A. January                                      B. August                                      C. December

15. The time shown on the clock is

- A. 12 o'clock                                      B. 7 o'clock                                      C. half past 7

**Section B. Short Answers:** (Write your answers on the spaces provided).

1. Calculate the area and perimeter for each shape below. Show your working on the spaces below

a). Area = \_\_\_\_\_

b). Perimeter= \_\_\_\_\_

2.

a). Area= \_\_\_\_\_

b). Perimeter = \_\_\_\_\_

3. The area of a garden with a length of 5cm and a width of 4cm is

\_\_\_\_\_

4. Addition

a).  $2945 + 3402 =$  \_\_\_\_\_

b).  $3001 + 2319 =$  \_\_\_\_\_

5. Subtraction

a).  $9372 - 2833 =$  \_\_\_\_\_

b).  $4039 - 1121 =$  \_\_\_\_\_

6. Multiplication

$342 \times 3 =$  \_\_\_\_\_
