Strand: Listening and Speaking.

<u>Strand Outcome</u>: Evaluate meaning of spoken textx by using simple strategies such as asking questions and story telling.

Great Big Elephants By Rosa Muller

Read the passage below.

Almost everything about elephants is big. They are the largest animals that live on land. There are two kinds of elephants: the Indian elephant and the African elephants. A male, African elephant can weigh up to six thousand kilos. Elephants can be up to four meters tall. Elephants need to live in very large areas because they eat and drink so much. Every day, elephants spend about 16 hours eating. They eat up to 200 kilos of food. They can drink over 250 liters of water. Elephants have very big, very

thin ears. Elephants use their ears to cool themselves down. An elephant's trunk can smell food, water and predators. Elephants need very strong legs to support their heavy bodies. Elephant tusks are really long, curved teeth. Elephants use their tusks to dig food and water and to fight.

Answer each question.

- 1. How many kinds of elephants are there? <u>There are two kinds of elephants: the Indian elephant and the African</u> elephants.
- 2. A male, African elephant can weigh up to six thousand kilos. a. True b. False
- 3. Why elephants need to live in large areas?
- Because they eat and drink so much, they eat up to 200 kilos of food and drink over 250 liters of water.
- What does elephant's trunk smell? <u>An elephant's trunk can smell food, water and predators.</u>
- 5. Why elephants need strong legs? They need very strong legs to support their heavy bodies.
- What are the tusks? Elephant tusks are really long, curved teeth. They use tusks to dig food and water and to fight.

Strand Building Healthy Relationships

Sub Strand Relationships

CLO Adhere rules and authority

Respecting others

- 1. Respect includes taking someone's feelings, needs, thoughts, ideas, and wishes into consideration.
- 2. Respect can be shown through behavior and it can also be felt.

Here are some ways to show respect

- 1. Asking others "How would you feel if..." before making a decision which affects them.
- 2. Happily make changes to accommodate their feelings, desires and needs.
- 3. Not interrupting them.
- 4. Asking and allowing feedback. Trying to understand their beliefs, values and needs.
- 5. Giving them the opportunity to solve their own problems without underestimating them.
- 6. Avoid telling them what to do.
- 7. Avoid telling them what they 'need' to or 'should do'.

Questions

1. Why is respect important?

Receiving respect from others is important because it helps us to feel safe and to express ourselves.

2. List down two ways you can show respect to your parents?

Consider their point of view. Don't bring up bad memories Listen to them and do not interrupt them.

3. What can happen if you don't respect others?

Can have conflicts Can lose their self – respect and their importance.

4. How can you show respect to people with disabilities?

Make eye contact, never avoid someone with a disability. Talk to them politely. Listen to them.

StrandMatterSub StrandInvestigating MatterCLOExplain matter, the different states and the properties

What is matter?

Matter is anything that takes up space and has mass. Mass is the amount of materials in a substance. Matter is everything we can think of and are things around us. Matter is made up of tiny pieces of particles stuck together. Example pencil. Book, house, water, wood, table, bottle, bird, spider.

Different states of matter.

Solid - definite shape

Liquid - takes the shape of container. No fixed shape.

Gas - has no fixed shape and can be easily compressed (squeezed) Can move freely Particle are far apart

Activity 1

1. Give 2 example of matter and draw

2. Draw 3 states of matter

Solid state

Liquid state

Gas state

3. What is matter?

Matter is anything that takes up space and has mass.

4. Tell whether each is a solid, liquid or gas

a)	oxygen -	gas	b)	oil	-	liquid
c)	salt -	solid	d)	fish	-	solid
e)	sand -	solid	f)	table	-	solid
