Opposites

The Opposite of left is right
The opposite of day is night
Now we come to short and long
After that there's right and wrong
Lost and found, sick and well,
How many opposites can you tell?
Heavy and light are not the same,
Don't you like our opposite's game?
Next I think of stop and go,
After that, high and low.
First and last, fast and slow,
How many opposites do you know?
