<u>1076 NADI SANGAM SCHOOL</u> <u>YEAR 8 - 2021</u> <u>WEEKLY HOME STUDY PACKAGE 13 SOLUTION</u> <u>NA VEIKA VAKA VITI</u>

WASEWASE B NA VOSA VAKA-VITI .

Sauma na taro .

Sa suru na belo.

1. Na vosa cava e nauni ena i yatu vosa e cake?

A. Sa C. belo B. na D. suru

2. Na vosa cava e tautauvata na kena i balebale kei na vosa e kata buto ena i yatu vosa e ra?

E qali ki Viti ko Rotuma.

A. vakarurugi C. vakateruya B. yautalatala D. vakalevukena

3. Na veibasai ni vosa na **buwaw**a na

A. buto. B. rikou. **C. matata**. D. tuwawa.

4. Na yavu ni vosa ka a sucu mai kina na **vakatasosoko** na

A. soko. B. sosoko. C. bosoka. D. sokota.

5. Sa dreu toka na kena leba e dau cavuti ni

A. sa kunekune o Leba.

B. bale na marama ni vanua.

C. dua na soqo sa vakarautaki oti tu.

D. sa matua na leba ka sa rawa ni laukana.

6. Keimami a cabe bula kei rau na drua mai Nasilai.

Kevaka e vakaibalebaletaki ki na lewe dua na i yatu vosa e cake ka me kua ni wili kina o koya e vosa tiko e sa na

A. Au a cabe bula kei rau na drua mai Nasilai.

B. E a cabe bula kei rau na drua mai Nasilai.

C. Keirau a cabe bula kei na drua mai Nasilai.

D. Keimami a cabe bula kei rau na drua mai Nasilai.

- 7. Na Vula i Kelikeli e veidonui kei na
 - A. Veverueri B. Janueri. C. Maji. D. Me.

8. "Vakaturaga saka i Lalagavesi."

Na i cavuti oqo e cavu tiko vua na turaga na

<u>A. Tui Cakau.</u> B. Vunivalu. C. Qaranivalu. D. Tui Macuata

9. Na i yatu vosa cava e volai ka vakadigotaki vakadodonu?

A "Mo dau vakarokoroko," a vakasorokakana o Rasinu.

- B. "Ko gole ni naica? e taroga o Buka."
- C. "Ko sa kana se sega" a taroga o Miliana?.
- D. Sa kua so na wele, « a kaya ko Salome.
- 10. Na i vosavosa vaka-Viti cava e veiwekani kei na talisasanitaki ni ka me vavi?
- A. Botowalai B. Kana yarayara C. Sa ukucavu tu **D. Sa dravu na lovo**

1076 NADI SANGAM SCHOOL YEAR 8 WEEKLY HOME STUDY PACKAGE 13 SOLUTION HEALTHY LIVING, 2021

ARTIFICIAL RESPIRATION Achievement indicator: Participate in community-based wellness activities.

1.What should you do before you start artificial respiration? Before you start artificial respiration, shake the victim several times. Shout to the victim – you may ask "Are you okay?" if the victim have lost consciousness, and may not respond. Yell to someone nearby to get help.

1. Explain the 5 steps that you would take when applying artificial respiration. Provide illustrations to support your answers.

STEP 3

STEP 4

Lift up chin and tilt head back as far as possible. If the head is not titled, the tongue may block the throat. The tilting procedure should provide an open airway by moving, the tongue away from the back of the throat. (sometimes the victim will resume breathing as soon as this has been done.) listen or feel his breathing.

Begin the resuscitation immediately. Pinch the nostrils together with the thumb and index finger of the hand that is pressing on the victim's forehead. This prevents the loss of air through the nose during resuscitation. Take a deep breath. Cover the victims mouth tightly with you own mouth. Give four individual, quick forceful breaths. Make sure you have a tight seal with your mouth over the victim's nose. If the airway is still blocked, the person has probably choked in some object. Give first aid for choking.

| STEP 5 | | |
|--------|--|--|
| | Watch the victim's chest. When you see it rise, stop blowing, raise your mouth, turn your head to the side and listen for exhalation. If the victim is still not breathing, start a cycle of regular breaths. Give at least one full breath every 5 seconds. Continue the procedure until victim begins to breathe independently. | |

1076 NADI SANGAM SCHOOL YEAR 8 WEEKLY HOME STUDY PACKAGE 13 SOCIAL SCIENCE, 2021

PEOPLE AND CARE OF PALCES

Achievement Indicator.

Identify and collect evidence of some major world climatic issues

1. Define Global Warming

It is the warming of the world's temperature that causes changes in the climate, people's lifestyle and the changes in the plant life, animal life and the behavior of every living thing.

Discuss some impacts of Global Warming on: the environment.

- Atmosphere's temperature will get warmer.
- Climate will change example the tropics will become deserts, temperate climates will change into tropical climates and the polar climates will have temperate climates.
- Ice bergs in the polar Regions will melt and causes sea level to rise and low lying islands to sink.
- Tropical cyclones will become frequent and its strength will also increase.
- The aquatic life in freshwater and marine area will be affected they can be destroyed in great numbers.

on humans:

- People of low lying islands will have to move to their homes to higher grounds or out to another island or country as Environmental Refugees.
- New disease will affect their health example skin cancer and cataracts
- It will change their lifestyle as they move into new locations their means of livelihood will change example fishermen will now become farmers.
- People's diet will change because of the new place they moved in will have different food available to them.

2. Explain some causes of Global Warming

- Global warming is primarily a problem of too much carbon dioxide (CO2) in the atmosphere which acts as a blanket, trapping heat and warming the planet. As we burn fossil fuels like coal, oil and natural gas for energy or cut down and burn forests to create pastures and plantations, carbon accumulates and practices worsen the problem by releasing other potent global warming gases, such as methane and nitrous oxide.
- The heavy presence of carbon dioxide depletes the ozone layer. The ozone layer is a blanket that is in the atmosphere that filters the amount of heat from the sun the earth receives and the amount of heat that leaves the earth.
- With the heavy greenhouse gases present in the atmosphere these gases absorb the heat and causes the earth's temperature to warm thus global warming affects us all.
