

LESSON NOTES

School: Ba Sangam College
Subject: Agricultural Science

Year/ Name: 10 _____
Worksheet: 16

Strand	AS 10.4 Livestock Production
Sub Strand	AS 10.4.1 Poultry
Content Learning Outcome	Describe the major systems and enterprises in which poultry live.

LESSON 3: THE INTENSIVE SYSTEM OF RAISING POULTRY

Lesson Outcome: At the end of this lesson the student will:

1. identify the two methods of raising poultry under the intensive system
2. describe the two methods of raising Poultry under the Intensive System
3. state the advantages and disadvantages of the two methods identified.

Notes:

The two methods of raising Poultry under the Intensive systems are Deep Litter System and Battery Cage System

Most common system of raising poultry by farmers is the deep litter system especially layer pullets and broilers.

Battery caged system is a suitable method used for layer production on commercial farms.

A Deep Litter System

A Battery Cage System

Activity Worksheet 16

1. What are some major materials that can be used as litter in the deep litter system?

(2 marks)

2. Is this system suited to Fiji's climatic condition? Give reason?

(2 marks)

3. Is it used by the major commercial broiler producers?

(1 mark)

4. State two advantages and two disadvantages of the deep litter system

(2 marks)

5. What are some places where the cages can be sourced?

(1 mark)

6. Is this system suited to Fiji's climatic condition? Give reasons?

(2 marks)

7. Is it used by the major commercial egg producers?

(1 mark)

8. State two advantages and two disadvantages of battery cage system of raising poultry.

(2 marks)

9. As a poultry farmer which poultry raising system will you choose and why?

(2 marks)
