CONTENT LEARNING OUTCOME	Construct legible and logical images, sentences and paragraphs to express ideas and experiences in various situations and contexts

Lesson Notes

How To Make Lemon Juice

If there are four people in your family, take four glasses of water in a jug. Take a lemon and squeeze out the juice. Make sure you strain out the seeds. For every glass of water put 2 teaspoons of sugar. That means you will have to put eight teaspoons of sugar.

Mix the water, sugar and lemon juice. You can put some ice cubes if you want to drink it cold. Lemon juice is a natural juice and it is good for our health. It is better than buying cordial from the shops and paying money. Cordial is not good for health.

Questions

A. The meaning of the words are given. Find the correct word from the passage for the meanings given.

STRAND	Earth and Beyond
SUB-STARND	Our Solar System
CONTENT LEARNING OUTCOME	Children to be able to know about a rainbow and it's seven colours.

<u>Lesson Notes</u>   <u>Rainbow</u>
Did you know that the sun's light is really made up of the seven colors in the rainbow? It is true. When all the colors are mixed together they give off what is called white light. The colours are:

- Red
- Orange
- Yellow
- Green
- Blue
- Indigo (navy blue)
- Violet (purple)

An easy way to remember the colors of the rainbow is ROY G BIV. A rainbow occurs when it is raining in one part of the sky and sunny in another.

<u>Questions</u>
1. Name the seven colours of the rainbow.
_____
_____

2, Draw a rainbow showing it's seven colours.
