Content Learning Outcome	Investigate the concept of globalization and express its effects from their country and regional point of view.

NOTES

GLOBALISATION

- The term **globalisation** is derived from the word globalize, which refers to the emergence of an international network of economic systems.
- **Globalisation** is the process of international integration arising from the interchange of world views, products, ideas and other aspects of culture.
- Advances in transportation and telecommunications infrastructure, including the rise of the telegraph and its posterity the Internet, are major factors in globalization, generating further interdependence of economic and cultural activities.
- The term globalisation has been increasingly used since the mid-1980s and especially since the mid-1990s.
- In 2000, the International Monetary Fund (IMF) identified four basic aspects of globalization: trade and transactions, capital and investment movements, migration and movement of people, and the dissemination of knowledge.
- Further, environmental challenges such as climate change, cross-boundary water and air pollution, and over-fishing of the ocean are linked with globalization.
- Globalizing processes affect and are affected by business and work organization, economics, socio- cultural resources, and the natural environment.

ACTIVITIES

1. Define Globalisation. **Globalisation is the process of international integration arising from the interchange of world views, products, ideas and other aspects of culture.**
2. Is globalisation important? State your reasons. **Globalized society offers a complex web of forces and factors that bring people, cultures, markets, beliefs and practices into increasingly greater proximity to one another.**
3. What are some impacts of globalisation in your community? **Environmental challenges such as climate change, cross-boundary water and air pollution, and over-fishing of the ocean are linked with globalization.
