### **LESSON 6/1/2 RECORD KEEPING IN POULTRY BIRDS/ EGG COLLECTION PROCESS/ PREPARATION OF MEAT BIRDS**

**Lesson Outcome:** At the end of this lesson the student will:

- identify the types of record kept in the poultry farm
- discuss the importance of keeping record in the poultry farm.
- list the egg collection process
- describe each process
- list the slaughtering process
- discuss the slaughtering process

#### **Notes:**

Record keeping is important in any enterprise as it is a document used for decision making and also for monitoring the progress of the farm.

The following processes are involved in the collection of eggs: collection, dry cleaning, wet cleaning, candling, grading and packing.

Meat birds have to go through a various slaughtering process before reaching the ultimate consumers.
