LESSON NOTES-20

School: PENANG SANGAM HIGHYear/Level: 12Subject: APPLIED TECHNOLOGY

Strand	AT 12.6 APPLIED TECHNOLOGY
Sub Strand	AT 12.6.1 Carpentry and joinery.
Content Learning Outcome	AT12.6.1.1 Demonstrate knowledge on safety, materials, tools and process and develop practical skills in joinery works relative to building work, doors and fitting and fitments.

DOORS

There are two types of exterior door they are:

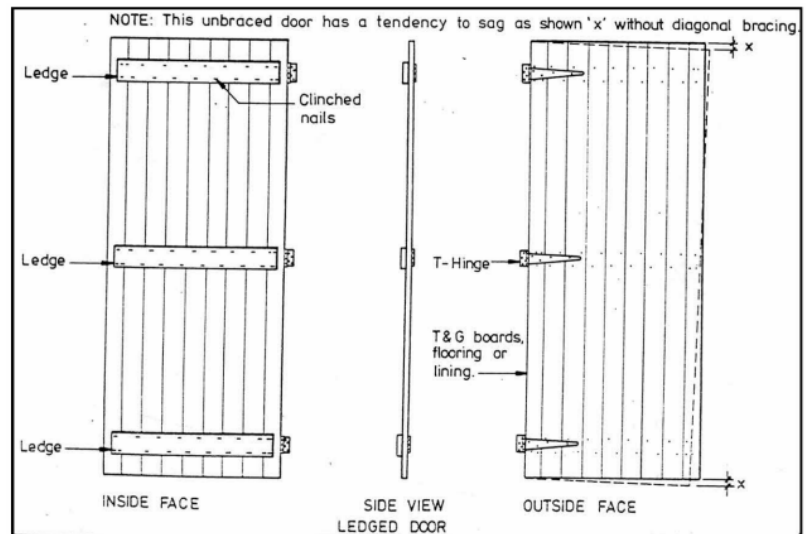

- Ledge and braced door.
- The frame and ledge door.

Ledge and Braced Door

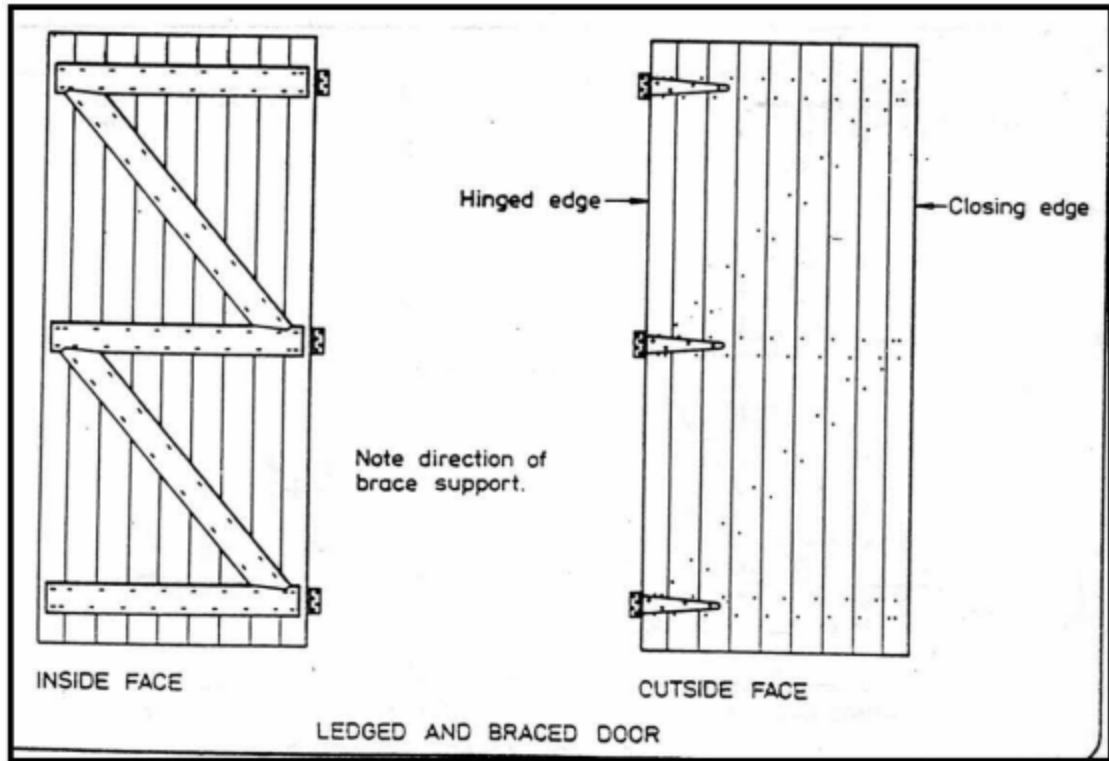

These types of doors consist of tongue and groove boards held together by ledges railed across their width.

Framed and Ledge Door

This type of exterior door has a better appearance than the ledged and braced door but is not suitable for construction on the job.

Ledge and Braced Door

SHORT ANSWER QUESTIONS

1. Name the two types of exterior doors.

2. Sketch a ledge and brace door and label the parts.
