

QUESTION 2**SHORT ANSWER QUESTIONS****(19 marks)**

a. Study the table below and answer the questions (i) to (iii) which follow.

Total and Marginal Utility Schedules		
Units of Good X	Total Utility (TU)	Marginal Utility(MU)
1	20	20
2	27	7
3	32	5
4	35	3
5	33	0
6	34	-1

(i) Define **total utility**. **(1 mark)**(ii) Explain how marginal utility is calculated. Include the formula in your explanation. **(2 marks)**(iii) Assume that **\$1 = 1 util**, construct a demand curve from the above data. **(2 marks)**

b. Study the graph below and answer questions (i) to (iii) which follow.

(i) Define **budget line** . **(1 mark)**

(ii) Calculate the income level if cost of ice cream is \$2 per cone and cost of Pizzas is \$5.00? **(1 mark)**

(iii) Identify the cause of the movement from B1 to B2. **(1 mark)**

c. Study the graph below and answer questions (i) to (iii) w

(i) Name the curve **U1**. **(1 mark)**

(ii) State the point which a rational consumer will choose to consume. **(1 mark)**

(iii) Explain your reason to the above question in part (ii). **(2 marks)**

- d. Read the article below and answer the questions (i) and (ii).

A farmer from Muaniweni is contemplating whether to rent an additional acre of land for his dalo farm in 2021.

- (i) Define **marginal productivity theory**.

(1 mark)

- (ii) Explain what the farmer will have to consider in order to make the right decision for his dalo farm in 2021.

(2 marks)

- e. Study the article below and answer the questions which follow.

Suppose the quantity supply and demand of seats in the BOG Final is as follows:

$$S(P) = 100 - 5Q$$

$$D(P) = 50 + 5Q$$

- Calculate the **equilibrium price** and **quantity**.

(2 marks)

- f. (i) Define **transport**.

(1 mark)

- (ii) State one importance of promoting connectivity in transport.

(1 mark)
