YEAR 6

MARK 20

NAMES: _____

SECTION A

(12m)

To interpret pie graph

A pie graph is always shown as a number of sectors within a circle.

Interpret this pie graph to answer the following questions:

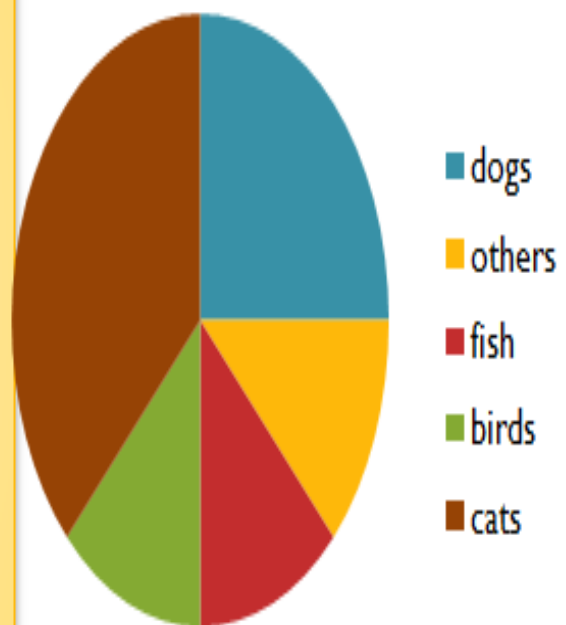

a. Which pet is the most common ?

b. Approximately how many dogs are represented by the dogs' sector ?

c. Approximately how many birds are represented by the birds' sector ?

d. If the total of the 'fish', 'birds', and 'others' equals the number of 'cats' represented, how many 'cats' are kept as pets by members of this class ?

40 pets of class members

e. What angle is represented by dogs' sector? _____

f. What fraction of the class has fish and others as their pets? _____

To construct and interpret picture graphs.

Refer to the key to interpret this picture graph and use it to answer the questions.

school	Year 6 students
Ro Camaisala	
SSM	
Assemblies of God	
St. Thomas Aquinas	
Deenbandhoo	
	 = 40 children

Use the data above to draw a bar graph below.

- How many year 6 children are at Ro Camaisala school ?

- Of the schools surveyed , which one has the most student in year 6 ?

- How many year 6 classes would there probably be at Assemblies of God ?

- Are the numbers of year 6 children at SSM the same as that of Assemblies of God ? _____
- The number of year 6 children at Deenbandhoo is

- How many children altogether were counted in the survey ?

FORMATIVE ASSESSMENT 3

ENGLISH

TOTAL: 20 MARKS

NAME: _____

SECTION A: COMPREHENSION (10marks)

Circle the letter of the best answer to each question.

Passage 1

Tuesday is mail day for us. We don't have a road into our place in the Marlborough sounds, so our mail comes to us by boat. Our mail boat, the 'Glenmore', runs from the nearest part of Havelock. Each day it goes to different places. On Tuesday it is our turn. On Tuesday morning we put the letters we have written and the parcels we want to send, inside a green canvas bag. Sunday and Monday evenings is usually spent writing letters all ready for posting on Tuesday.

At about ten o'clock, we walk down to the jetty with our neighbors to wait for the "Glenmore" to arrive. It is a good time to chat and exchange the goat, all come down to the jetty. We are the first on the mail run for Pylorus sound. There is always a feeling of excitement as we see the boat coming around Black's Point because as well as the mail; the 'Glenmore' brings newspapers and groceries if we order them. When the 'Glenmore' pulls alongside, we quickly swap our bag of outgoing mail for our bag of incoming mail and whatever else captain Warwick Young has brought for us. If the tide is low, we have to lean right over the edge of the jetty to reach the boat below, so we like high tide the best.

Then the boat is on the same level as the jetty and swapping mail bags or collecting a box of groceries is easy. The boat doesn't stop for long as it has a long way to go after leaving our place. It won't be back until half past five in the afternoon. After we wave goodbye to the 'Glenmore' and its passengers, we wander off up to the house and make a cup of tea before opening our mail bag. Mail day is like a Sunday for us. We spend most of the morning reading letters from our families and friends and catching up on the week's newspaper. But most of all, we enjoy looking through our library books which we order from the 'Books by mail' service in Christchurch. Mail day is our favorite day of the week.

Questions

1. Why is the mail delivered by boat?
 - A. It is nearer by sea
 - B. They live on an island
 - C. No roads go to their place
 - D. They wish to receive their mail by boat
2. When does the mail boat come to the Marlborough sounds?
 - A. Monday
 - B. Tuesday
 - C. Wednesday
 - D. Thursday

3. The name of the mail boat is the
A. 'Warwick' B. 'Glenmore'
C. 'Malborough' D. 'Pelrrous sound'
4. What do they do on Sunday and Monday evenings?
A. write letters B. play with their pets
C. exchange news and chat D. sit by the fire and tell stories
5. What time does the mail boat arrive? It arrives
A. at five o'clock B. after ten o'clock
C. a quarter to ten D. at a half past nine

SECTION B: Usage

Read the whole story before beginning to write. (5m)

The tiger is the largest in the cat family. It has yellowish skin _____ black stripes on its head, body and tail. Because of its _____ man and other animals find it _____ to see it in the jungle. The tiger usually _____ in the day and hunts at night. Tigers are found _____ tropical countries.

SECTION C: Opposites

(5m)

1. Clever-_____
2. Hardworking-_____
3. Bright-_____
4. Enemy-_____
5. Smooth-_____

ELEMENTARY SCIENCE

MARKS:20

NAME: _____

SECTION A

MULTIPLE CHOICE

5 Marks

1. The science equipment that measures temperature is called the _____.
A. flask. C. thermometer.
B. beaker. D. measuring cylinder
2. The process that changes solid directly to gas is known as _____.
A. melting. C. sublimation.
B. evaporation. D. condensation.
3. The disadvantage of using crude oil as a source of energy is that _____.
A. it is a very versatile fuel.
B. oil drilling endangers the environment and ecosystem.
C. it is used to produce things like plastics and heating oil.
D. it can be refined and used to create many different useful products.
4. Soil erosion is caused by _____.
A. rain, wind and heat. C. heat, day and wind.
B. day, snow and rain. D. night, wind and temperature.

Study the picture below and answer question 5

5. The part labeled **x** is the _____.
A. Wheel C. Pulley
B. Axel D. Gears

SECTION B**TRUE OR FALSE****5 Marks**

Read the following statements carefully. **Write (T) for True or (F) for False** against the number of each statement.

1. Sand is not produced by the weathering of rocks._____
2. Products are substances formed in a chemical reaction._____
3. The simplest way of **Artificial Reproduction** in plants is by using cuttings._____
4. Spring tide is also known as King tide._____
5. Electromagnet picks up pins._____

SECTION C**MATCHING****5 Marks**

Match the items in **Column I** with the items in **Column II**.

Column I		Column II
1. Gears		A. Earth's only natural satellite
2. Tides		B. Wheels with teeth.
3. Moon		C. Water, ice, acids, salt, plants, animals, changes in temperature.
4. Agents of Weathering		D. Is a grooved wheel or a combination of grooved wheels.
5. Pulley		E. Alternate rising and falling of the sea levels.

SECTION D**FILL IN THE BLANKS****5 Marks**

Fill in the **blanks** using the words in the box given below.

Hydro- electric	Anther	Neap	Spring	Moon	deforestation
------------------------	---------------	-------------	---------------	-------------	----------------------

1. The cutting down of trees without replanting is known as _____.
2. _____ tide occurs when the sun, moon and the earth are in a straight line.
3. _____ power uses a water turbine and generator.
4. _____ produces pollen grains.
5. _____ causes tides.

FORMATIVE ASSIGNMENT 3

SECTION A: Multiple Choice (5marks)

Circle the best answer.

1.What is the Capital of Fiji?

- | | |
|-----------|---------|
| A. Suva | B. Ba |
| C. Labasa | D. Nadi |

2.Lines running east-west across the map is called _____.

- | | |
|---------------------------|--------------|
| A. meridians of longitude | B. equator |
| C. parallel of latitudes | D. latitudes |

3.Name the widest river in Fiji.

- | | |
|-------------------|------------------|
| A. Sigatoka River | B. Ba River |
| C. Rewa River | D. Dreketi River |

4.How many cities are there in Fiji Islands.

- | | |
|------|------|
| A. 2 | B.4 |
| C. 6 | D.10 |

5.Which city is known as sugar city?

- | | |
|---------|--------------|
| A. Nadi | B. Lautoka |
| C. Suva | D. Lomaiviti |

SECTION B: True/False (5marks)

1.Labasa is located in Vanua Levu. _____

2.Rewa River is the longest river in Fiji. _____

3.Lautoka is located in the western division. _____

4.Fiji is located in the South Pacific Region. _____

5.Nadi is the old capital of Fiji. _____

SECTIONC: Short Answers (5marks)

1.Name two features of a map.

2. Define the term drought.

3. What is meridian of longitude?

4.Which place is famous for turtle calling?

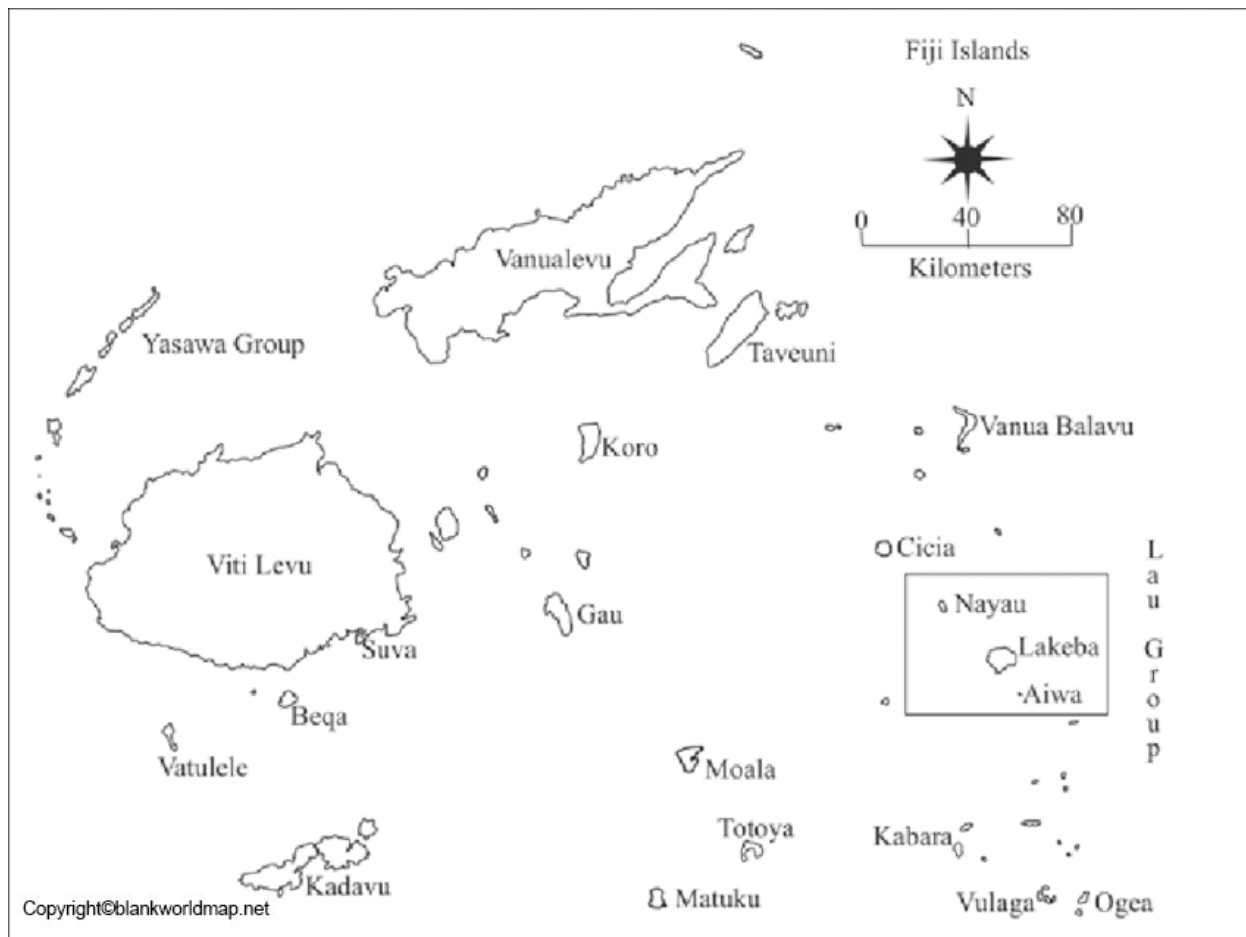

5.Name the four divisions in Fiji.

SECTION D: Mapping (5marks)

Given below is a map of Fiji Islands.

Label

1. Nadi Town
2. Lautoka City
3. Labasa Town
4. Levuka Town
5. Savusavu Town
