Re: \_\_\_\_\_

I would like to thank the management team of Creative Electronics for the kind donation of ten tablet devices. This is a timely gesture for rural \_\_\_\_\_ in need of technological advancement.

The devices received are important for the students of the school. It will help them to easily engage in research work. Since these devices are portable, it is easier for the children to carry around to areas of network coverage.

Furthermore, the students are able to familiarise themselves with such a technology and know about its uses and functions. Access to technology and internet enable students to enhance their \_\_\_\_\_ skills apart from the everyday chalk and board routine learning.

Not only does it help to broaden one's educational needs but such new things also engage students' interest in learning and they tend to become motivational learners.

I \_\_\_\_\_ extend my gratitude to your company for such kind consideration and look forward to similar support in future.

Yours faithfully
