

SANGAM SKM COLLEGE - NADI
WEEK 1 - SOLUTION
YEAR 12
APPLIED TECHNOLOGY

Exercise: Sketch any 2 types of PPE that are mentioned above.

1. Dust Coat

2. Safety shoes

Exercise: State 3 things that help in maintaining tools from getting damaged inside the workshop.

- Clean, Inspect and Care for Tools.
- Make it a habit to clean tools after each use before you return them to storage.
- Wipe them down with a rag or old towel and be sure they are free of dust, grease and debris before you put them into their proper places.
- This is also an opportunity to look for any damage or defects.

Exercise: State 3 examples of each safety type that people forget to follow.

- Entering the workshop without their PPE
- Walking inside the workshop without looking around there surroundings
- Playing with the tools and appliance
- Disturbing the person working in the workshop
