Week 6
Fractions

Study the number line given above and put in the correct sign $<$, $>$ or $=$ in the space provided.

- a) $\frac{2}{3} \dots > \dots \frac{1}{2}$
- b) $1 \dots = \dots \frac{4}{4}$
- c) $\frac{2}{4} < \dots \frac{2}{3}$
- d) $\frac{3}{4} < \dots 1$

Word Problem

1. How many quarters will equal half?

2 quarters [$\frac{2}{4}$]

2. If I give one third of a pie to my friend, what fraction of the pie is left for me?

Two third [$\frac{2}{3}$]

The End
