

DREKETI SANGAM SCHOOL

YEAR 5

SOCIAL STUDIES

NAME: _____ WORKSHEET # 3

1. Define the following terms:

Environment- Our environment is the surrounding in which living and nonliving things are interdependent on each other for development either physically or culturally

Living – alive, organisms that possess life and have the ability to eat, grow and live

Non Living- any form without life as they do not possess life, do not have cells and do not grow or move.

Interdependence – the dependence of two or more people or things on each other

Development – an event constituting a new stage in a changing situation

Physical- things that are of nature

Culture – the way of life of a particular people

For you to do

1. Study the pictures above and list the physical features of the environment.

Mountains, forest,trees,island,beach,sea

2. Describe the physical features near your school.

Coconuts/trees/hills/seas/mangroves/valley/natural vegetation

3. How have the people changed the physical features of places near your school/community?

Development/housing/roads/farming
