

DREKETI SANGAM SCHOOL

YEAR 5

ELEMENTARY SCIENCE

NAME: _____ WORKSHEET # 4

QUESTIONS

WHAT IS THE DIFFERENCE BETWEEN NATURAL AND ARTIFICIAL MATERIAL?

Natural materials are things that are produced by nature, not made by men.

Artificial Materials are made by humans, especially in imitation of something natural:

Examples: Plastics, clothes, paper.

Natural Materials	Uses

Activity 1:

In groups identify the types some recyclable items and those that cannot be recycled.

Item	Recyclable/Non-Recyclable	Reasons
