<b>STRAND</b>	<b>TIME</b>
<b>CONTENT LEARNING OUTCOME</b>	Identify and tell the time in o'clock times
<b>TOPIC</b>	Telling the time using the analog clock
<b>RESOURCES</b>	Year 4 Mathematics Text
<b>PAGE</b>	55

**A. NOTES**

There are two major types of clocks: digital and analog clocks. Analog clocks have two main important hands: a long minute hand and a short hour hand. Some have another small red hand which is called the second hand. They tell the time of day in hours and minutes.

**1 day = 24 hours; 1 hour = 60 minutes; 1 minute = 60 seconds.**

When the minute hand points at 12, it shows that there is 0 minutes left, so in this case the o'clock time now will be indicated by the hour hand. e.g.

**ACTIVITY**

For each time, you need to either draw in the hands or write the time.

3 o'clock	___ o'clock	___ o'clock
5 o'clock	9 o'clock	___ o'clock
