## Paragraph Writing

Look at the picture to the right. What might have happened? Who might the girl be? Why is she covering her eyes?

This is your paragraph, you can decide on what you think is happening and write a good paragraph that relates to the topic sentence and has 3-5 supporting detail sentences that relate to the topic. Don't forget to end with a concluding sentence.

The little girl has been doing her school work using a laptop computer. She has been working with the laptop for quite long without any rest or break. That is why her eyes are affected because of the bright light that is coming from the laptop. She is trying to cover her eyes to at least have some time off the laptop. She is falling off to sleep and she needs to turn the device off for a break. Spending too much time on electronic device is not good as it can damage your eyesight in the long run. She has actually put her writing materials aside and have now watched a movie or maybe a computer game.
