**ENGLISH ASSESSMENT- OCTOBER- SOLUTION**

**YEAR: 4**

**MARKS: 20**

**Section A**

**Cloze Exercise**

**(10 marks)**

Write only **one word** in each space to complete the passage.

There are over 6,000 languages in the world. This is amazing and shows what an interesting thing a language is. Another amazing thing is there are 800 different languages in Papua New Guinea. I am happy because I can speak in English, French, Fijian and a little Fiji Hindi. I wonder how many languages you can speak. It is not easy to learn a new language.

It takes us a long time even to learn our mother tongue or first language. In Fiji and most South Pacific countries it is wonderful how some school children are good in speaking, reading and writing in English, as well as their mother tongue.

easy	as	are	and	in
time	how	am	shows	good
